

Excel Level 5 - PivotTable and Dashboard Reporting

What do I need?

Learners should have successfully completed Excel courses to an intermediate level or possess the equivalent knowledge. Learners should be able to create, edit, format and print worksheets. They should also have the ability to create mathematical formulas and formulas using basic functions (SUM, AVERAGE, COUNT, MAX, MIN). It is important that the learner is working on Microsoft Office 2013 or higher.

Duration:

2 Days

Who should attend?

This course is aimed at learners who need to analyse information utilising PivotTables as the foundation for Dashboard reports. Dashboard reports present business information as a clear, concise picture that is easy to read, understand, and update. A variety of results can be condensed into a single page for comparison purposes, simplifying and reducing the time taken to report on organisational performance.
